Subject: 09.29.2020 Meeting Slides & Requested Documents
Attachments: EPA Status Update 9.29.2020.pdf; OECD Guidance No. 23.pdf; Redacted Sample XP62 Category I Brine 48-H WET Test Report.pdf; Redacted Sample YU91 Category III Gel Sample 48-H WET Test Report.pdf

All -

Thanks again for attending the meeting yesterday. Attached are the following documents for your review:

1. The meeting slides
2. The OECD Water Accommodated Fraction (WAF) guidance document
3. Two example test reports from the project. Please note the sample identification numbers on the reports correspond to the following sample identification numbers on slide 7: TCW 5 = XP62 and TCW 12 = YU91. The sample ID numbers are also noted in the file names. Sample identification numbers are being "double-blinded" in the study to ensure that proprietary information is not inadvertently shared among participants. In addition, the WET test reports have been redacted to remove operator and location information; also for proprietary reasons.

As agreed to at the end of the meeting, OOC will be contacting you to schedule another discussion at the end of October/beginning of November.

In the interim if you have any questions please contact me.

Greg Southworth
